

Please reject the National Association of Broadcasters petition 04-160. I've had XM Satellite Radio for over a year now and it's practically the only thing I listen to. I'm so tired of the crap being played on the local radio stations here in Chicago. The choice of programming is seriously lacking in this city. Also, I travel a lot and I can't tell you how great it is to be able to listen to just about anything I want, anywhere in the country. Now that they've added the local weather and traffic to their programming, it's even better. I love music and XM has been the best thing. I pay for the service and the the NAB should have no right to decide what I want to hear. Once again, please reject the NAB's petition 04-160.

Thanks,  
Jason Gums
